Grand total. 382 822 To this day last year. 275 235 The total number reported by us, last season, as having arrived by river, through toll gates, &c. was 337 000, while the whole number packed was, in round numbers, 334,000, leaving 27.00 for wagon hogs, and errors in toll gate returns. The number of wagon hogs received this season is much smaller than last, and our returns, as given above, will approach nearer to the actual amount packed than last year.

### MONEY MARKET.

FRIDAY, Jan 9-6 P.M.
There is nothing new in the stock market. Prices current at the first board, to-day, do not vary materially from those ruling at the close of the second board yesterday. The transactions show a disposition, on the part of speculators to keep the market active; and there is evidently an anxiety among outsiders to come in and take their chances There is money enough in the street, at rates varying a little from the legal standard. The banks have just completed their quarterly returns to the Comptroller, and they will, without doubt, discount more liberally. It is the prevailing opinion in Wall street, that money will, during the spring, be very chesp and abundant, and that speculation must, as a matter of course, become active. Wall street has been quiet for a long time. There is great want of a new excit-ment in that vicinity. Speculation in fancy stocks acts as a safety valve, and lets off a great deal of extra excitement. It is actually necessary to get up a movement in fancy stocks as often as once in every six months, to give outsiders who have a plethora of money a chance to get rid of it. It is full six months since we have had much activity or expansion in the market, and it is our impression from certain indications, that we are now upon the eve of an inflation of prices, that will relieve those who have so long and so patiently carried large lots of stock and put the burden upon other shoulders. No changes of importance have taken place in the posttion or condition of the most prominent railroad and other incorporated companies, the stocks of which are continually offered in the street in large quantities; but a speculative demand will carry up prices rapidly in the face of every opposition. It matters little what these tocks are worth, buyers when in a state of excitement case nothing about the intrinsic value of a security; they look entirely to the chances of getting highe than they paid, without troubling themselves much about the causes likely to produce such a result. It is no more or less than a species of gambling. At the first board, Eric Railroad declined 14 per cent ;

New Jersey Zinc, 1/4; Reading Railroad sold at 57-dividend of three and a half per cent off. There were sales. yesterday, at 60 % a 60 %. The result of the payment of this dividend will be injurious to present holders of the stock. It has astonished some of our shrewdes operators

The receipts at the office of the Assistant Treasurer of this port, to day, amounted to \$87,532 42; payments, \$78 286 17-balance, \$1,731,800 83.

The U. S. Mail steamship Pacific for Liverpool to-morrow, (Saturday.) will take out upwards of half a million of dollars in specie. This is not large, and the aggregate for the week will be comparatively small. Another steamer from Chagres, with later news, and two or three millions of gold dust from California, will be along in a few days. This will largely increase our supply of precious metals, and give us a wide margin for shipment. The demand for foreign exchange, to day, was moderately active, without change in rates. There is a fair sup ply in the market. We quote bills on London, 10 a 1014 per cent premium; on Paris of 15 a of 13%; Amsterdam,

41)4 a 41)4; Bremen, 78 a 78)4; Hamburg, 36% a 36%.
Bids for the new issue of Eric Railroad Convertible Bonds amounting to three millions of dellars, will be opened to morrow (Saturday) at two o'clock. It is the impression that they will be all taken at prices ranging from 88 to 90 per cent. It is, we learn arranged to not allow any to be taken below the lowest price above named. The company have fixed a minimum, and those who are particularly anxious to get any of this new issue of bonds, must govern themselves accordingly

The Empire Bank, in Broadway, was organized last evening, by appoinment of ex Governor Wm. C. Bouck as President and Mr. H T Kiersted as Cashier. Mr. James Purdy, late of the Custom House, has been appointed first Teller

The Ohio Life and Trust Company have declared a semi-annual dividend of four per cent. The Greenwich Savings Bank has declared the usual mi annual dividend.

-Total value of merchandise exported in December, \$2.885.782. Of this all but \$373,816 was composed of produce of the United States. The shipments to Liverpool and London were not during last month, such a large per cent of the aggregate as we have previously noticed. There has been a decided improvement in the distribu-tion of our exports. To South and Central America the shipments have been unusually large in the aggregate. This statement is important in connection with the table of quantities of certain articles exported, as it gives those interested all the general information desired relative to

the trade of this port with foreign countries.

ment, on the 5th of January, 1852, was considerably less than on the corresponding day in 1851. There had been within the year, a decrease in the discounts, of \$355 277; in specie on hand, \$342,610; in circulation, \$101,251; and in deposits, \$612,989. The report shows a great expansion in the operations of several banks, and a great reduction in the movements of others. Amidst all the speculations of the past year in every species of property particularly in railroads, it is extraordinary that the Baltimore banks have been able to reduce the operations of the most important departments. It presents a sound part of the bank managers to preserve as uniform a movement as possible. The amount of capital in the Baltimore banks on the 5th of January, 1852 was \$7,141,461.

The Philadelphia North American announces that the holders of the Allegheny coupon bonds, on presenting the coupons, yesterday, for payment, at the Bank of Pennsylvania, were notified that instructions had been received to deduct from the face of the coupons the smount of the State tax (five per cent) without any discrimination in favor of non resident holders of the bonds.

The amount of duties on imports received in the district of Philadelphia, in each of the past three years, was as annexed :-

1849. 1850. 1851. Total......\$2.714.965 \$3.361.112 \$3.673.124 We have no returns showing the value of merchandise imported into the port of Philadelphia in either of the past three years. The increase in revenue from 1849 to 1850 was \$648,147, and from 1850 to 1851 \$312,011—otal Increase in two years, \$958,168.

The stock securities of the James Bank, the par value of which was \$39,000, sold at auction for \$38,437 50. On the 16th of December, the real estate securities of the bank, nominally amounting to \$50,538 50 were sold, and realised \$29.475, making, with the amount of the sales of stocks, \$67,912 50. The circulation of the bank according to the latest report from the department, was \$76,743. If the assets soll include the whole property of the bank, its notes will receive a dividend of about eightyeight cents on the dollar.

The demand for dry goods is, as might have been expected at this very early period, extremely light. Southern merchants are the principal buyers, but only to a moderate extent. The commission houses are busy receiving their spring goods. Clothiers have bought very lightly this season, owing to their large surplus stock. The market for staple cottons is very firm, and has rather an upward tendency for the heavier descriptions. An advance is anticipated with the revival of business Cotson yarn shows a slight accumulation of stock but not so as to affect the firmness of prines, which is 15c. for each. Brown and bleached shirtings and sheetings are very quiet. Drills are not active, but sell moderately, at 6% a 7c for browns, 7%c for bleached, and 8%c. for blues. Osnaburgs are light in stock, with a fair demand at steady rates. Denims are dull, except for export, at uniform prices. Stripes are in better request for the clothing trade. Ticks are also in rather more demand. without change in prices. Cottop flaunels are in good demand at full prices. Printing cloths are dull and drooping. Prints of spring styles are coming forward, but the sales are yet light. Ginghams are inactive. Cotton pantalocuery are in moderate request at steady rates. Delaines are coming freely into market, and a small opening business is dwing, Cloths are dull and declining. The consumption by the clothing trade has been lighter than expected, leaving a stock too heavy for the market. Faccy cassimeres are very quil; plain colors, blacks, and doeskins are moderately active, though at irregular prices, there being more anxiety to sell. Satinets are dull and heavy. Total......\$2,612,436 \$84.281 \$41,501 \$347,864 Tweeds and jesse are inactive. Sheeps grays ere no

longer in request. Linseys are heavy at 13a 14c. Flannels are quiet; blankets inactive; and shawls are now out of first hands. The jobbers are still doing a moderate business for the city and near by trade, and some for the business for the city and near by trade, and some for the far distant markets. French goods are arriving in large quantities, and the market will be well stocked for the opening of the spring trade. Owing to the rise in prices in France, prices will be firm at first; but we have no faith in the durability of affairs in that country, and the present activity and buoyancy can only be temporary. Our market will be flooded, and we have reason to be lieve that very low prices will rule late in the season British goods are being shipped more freely from the other side. In prints, cambries, and muslins, we shall receive larger quantities than usual from Great Britain. In plain calicoes there is a falling off, but more especially

in linens and linen and cotton goods.

This is unusually large, and would be excess	nve at any

time in the season. There was hardly a week during the whole of last fall that exceeded the above. The arrivals must have been enormous, as nearly half a million in value was warehoused. We do not like the looks of this. If the importations continue throughout the season at this rate, the shipments of specie from this country wil

this year largely exceed tho:	se of 1851.

DAYTON, May I, 1848.

Dr. A. M. MAURICEAU:—

(Extract of a latter from a gentleman in Dayton, Onic.)

DR. A. M. MAURICEAU:—

My DRAR SIR:—My wife has been perceptibly sinking for some three years or more, in consequence of her great angular and suffering some menths before and during her confinement; every successive one more and more duditasting and prostrating her, putting her life in imminent danger, and which was, on the last occasion, despaired of. I supposed this state of things was inevisable, and resigned unyself to meet the worst. At this time, (now about two months, I) heard your book highly spoken of, as consaining some matters reaching my case. On its receipt and perusal, I cannot express to you the relief it afforded my distressed mind, and the joy its pages imparted to my wife, on learning that the great discovery of M. M. Desomeans provided a remedy. It opened a prospect to me, which I listle concived was possible. But for this, ers another year would have passed over my head, in all human probability my wife would have been in her grave, and my children left mother left.

would have been in her grave, and my character has mother loss.
